# Treat yourself to the Broads' best

The Broads is one of Britain's best loved landscapes. If you're looking for high quality refreshment while you're enjoying the special pace of this precious wetland, this guide is for you.

Our inspectors scour the area every year. They eat in and carefully grade all establishments. Those that score over 60% on the assessments become members of the Broads Quality Charter.

Set up by the Broads Authority, this special scheme aims to raise standards, showcasing local food and excellence.

With the charter now in its eighth year, there is every sign that Broads restaurants, pubs, cafes and tea rooms are going from strength to strength. The number awarded the charter is growing fast and they are all listed in this booklet.

 'Star quality' status has been awarded to the six that scored over 80%. Visit them for something really special!

Congratulations are due to all members of the Broads Quality Charter. Visit any of them and you can be sure of finding a warm welcome and memorable meal.
